It looks alright. The filing fee is \$50 for 0.06 cfs.

Dear Mr. Knoblock,

Thank you for your response. I am sending you attached a draft copy of Permit No. 95-12487, the Statement of Completion that I have filled out to the best of my knowledge and copies of e-mails as documentation for fulfillment of the Conditions for Approval set down in the permit.

Might I ask you to look over this and let me know if anything is missing or insufficient?

I thank you kindly.

Regards,

Iris Momber

You can submit the proof at any time. Due to some budget shortfalls, it is hard to determine when the field exam will be made and the water right license issued.

Subject: Statement of Completion for Submitting Proof of Beneficial Water Use

Dear Mr. Knoblock,

You have been most helpful to my sister Nadine Young in getting an initial permit to draw water from Coeur d'Alene Lake for our property on Benpoint,, Windy Bay. The permit is valid until 11 August 2011, and the statement of completion for the granting of the water rights to be submitted by 11 August 2011.

Might I ask what a realistic timeline for submitting the statement of completion to avoid getting too close to the submission deadline. I could easily do the work in July, but do not know if that would allow enough time.

I appreciate your response.

Kind regards,

Iris Momber

I agree with your analysis that there was no use of water before May 20, 1971.

The next step to complete your permit is to submit the Statement of Completion.

Dear Mr Knoblock

Re: Previous water rights on land purchased in 1968 from Bennion homestead.

Our understanding is that the land which my father purchased and built a cabin was never developed prior to his ownership

He purchased a vacant, undeveloped piece of land on Benpointe Rd...Windy Bay of CDA lake.

Bennion's, the previous owners of the entire side of our point lived on land about a half mile away

Kathy Bennion, an heir, is still living on nearby property homesteaded by her ancestors.

Between our purchase documents and Kathy's testimony, could it be determined that there were no previous water rights to our particular parcel of land?

I'm just looking for ways to know how to complete our application for water rights following our initial permit?

Sincerely

Nadine Young
