Dear Mr Knoblock

Re: Previous water rights on land purchased in 1968 from Bennion homestead.

Our understanding is that the land which my father purchased and built a cabin was never developed prior to his ownership

He purchased a vacant, undeveloped piece of land on Benpointe Rd...Windy Bay of CDA lake.

Bennion's, the previous owners of the entire side of our point lived on land about a half mile away

Kathy Bennion, an heir, is still living on nearby property homesteaded by her ancestors.

Between our purchase documents and Kathy's testimony, could it be determined that there were no previous water rights to our particular parcel of land?

I'm just looking for ways to know how to complete our application for water rights following our initial permit?

Sincerely

Nadine Young
