Dear Mike

Thank you so much for working on getting our "permitting" information to us (1/4 inch fish screen) regarding the water pump installed for us in Windy Bay.

Gratefully

Nadine Young and family

Blake,

Do you have a drawing on the in-take screen? What size is the opening on the screen?

Subject: Intake Screen

Ashley, Here's a good one. We have a customer who needs a spec sheet on your intake screen, used on 23000 Series Submersibles. The sizing of the openings apparently is critical. This info is required on the water permit to pump out of the lake. Thanks, Paul
