Re: Horizon Organic Dairy: Water Bank Applications

Dear Cynthia,

Please find the enclosed applications to lease portions of water rights 36-2248, 36-2249, 36-7688, 36-2254A, 36-2430, and 36-8008 on behalf of Horizon Organic Dairy. Horizon Organic Dairy would like to lease these water rights to the water bank in order to protect them from possible forfeiture. In the near future, the dairy is proposing to transfer these water rights by combining all of these water rights into a large permissible place of use. The dairy is also in the process of expanding/reconfiguring their operations and may want to transfer portions of these water rights. However, until these rights are needed elsewhere the dairy will not be irrigating these acres. Therefore, they would like to lease these rights to the water bank until further notice.

The following documents are included therein as follows:

- The applications to lease water from the water supply bank for portions of the fore mentioned water rights.
- A figure describing the Horizon Organic Dairy irrigation water rights.
- The partial decrees within the SRBA associated with these water rights.

I would ask that these leases for the Water Supply Bank be approved as soon as possible. If you have any questions regarding these transactions, please feel free to give our office a call.

Sincerely,

Charles E. Brockway, P.E.
