RE: Phone Conversation w/ Don Mateer

Today I spoke with Don Mateer on the phone. He was calling regarding the letter that I sent out a few weeks ago. Don stated that he had a new well drilled for his property as part of his agreement with the new owners of Lazy Mobile Home Park. He was not interested in retaining his portion of water right 67-14495 and is planning on using his well for indoor domestic use only. I informed him that right 3-10258 is appurtenant to his property and that the right is from the Snake River for the irrigation of 1 acre. He will plan on submitting an ownership change form and maybe an application to the WSB because he hasn't used the water and doesn't plan on using it any time soon. In addition, I told Don that he will have to file an application for transfer to change a point of diversion if he wanted to install a pump on his property.
