Re: Water Supply Bank Lease Application, Right No. 29-2613

Narrative: Application seeks to lease 20 acres of 29-2613 into the bank. Application was received in May of 2007. Applicant indicates handlines are used on corners of a pivot and intends to stop irrigating the corners.

Authority to File: Kryst Krein filed the application and is the water right owner per IDWR records (an ownership change was filed in April of 2005). Taxlot data shows all ground under this right is under Krein's name.

Water Right Validity: Right 29-2613 is for a total of 2.89 cfs/620 acre-feet/155 acres. Partially decreed in March of 2004. Review of imagery shows about a 135 acre pivot in place in 2009. No forfeiture found – review of imagery between decree date and application received date finds evidence of irrigation in the corners (note there are only 3 corners, the SE corner is basically intersected by a road and the acreage on the other side of the road belongs to someone else).

Injury to Other Water Rights: None anticipated.
