Hey Ed,

Thanks for the heads up.

It looks like the packet you dropped off is missing the "proof" Statement (attached). And it also looks like you paid a \$200 license examination fee that you didn't need to pay because you conducted the examination.

We will get started on a refund of the \$200 but we will still need that completed proof statement in before April 1.

Thanks,
c

Dear Craig,

Today, I had delivered to your office, a beneficial use field licensing examination for water right No. 63-31138 in the name of the City of Meridian. I was very rushed having to leave town and was unable to write up a cover letter.

I had actually done the beneficial use examination back in 2005 just before the original proof due date. After completing the examination, though, I noticed that the City had applied for three points of diversion and I only found one. After conferring with the City, they were still considering a second well so we filed a Request for Extension of Time and the proof due date was extended to April 2011. I just wanted to clarify that possibly confusing fact that the field exam was done well before the proof due date.

Call with any questions.

Thank you.

Ed
