RE: Transfer No. 77120
Water Right No(s). 63-2549A

Dear Watermaster:

A copy of the above referenced application is enclosed. Please review the application, then complete the enclosed recommendation form and return it to this office.

This application is to correct an error about the diversion location. It's in the same $\frac{1}{4}$ $\frac{1}{4}$ but at other end by applicant's home as shown on the map. Owner of other split part, 63-2549B, has confirmed this is correct and also confirmed diversion location for B portion is correct. We propose to include standard water district conditions slightly tweaked in this transfer: *upon notification by the department* (emphasis added), must install adjustable/lockable diversion works & acceptable measuring device. The idea is that probably don't need those now for West End Drain unless you think otherwise. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

Since we are trying to expedite this, please submit your comments by April 4. Will assume you are okay with this application if we do not hear from you by then. Please contact Steve Lester if you have any questions.

Sincerely,

Denise Buffington
Administrative Assistant
