Steve:

To process the application without delay, I need some additional information: confirmation of beneficial use of 63-20496 sometime in the 2006-2010 period. Probably unlikely that any flow data exists for that period, although that would be ideal. Alternatives might include pump curve, horsepower equation &/or other information along with something confirming the dairy operated in that period (owner affidavit &/or other business records etc.).

Typically, a department request for application information includes at least a 30-day deadline with possible termination of the application without a timely reply. In this case, the applicant obviously wants to move ahead without delay, so that deadline/consequences part has been omitted.

Attached notes summarize my review so far. Please let me know if you have any questions. Thanks for your attention to this.

63-20496	Steve & Deborah Boschma	2000 decree, need confirmation diverted & used 0.17 cfs in last 5 years, 2006-2010
63-31584	Steve Boschma & Lone Pine Farms LLC	2009 decree

Steve Boschma has authority to file the application based on above summary.

Confirming full validity of 63-20496 will allow:

- Transfer processing without legal notices.
- Total diversion of 0.35 cfs for all rights when combined.

If approved, transfer will not change ownership of the rights.

Per ID Sec. of State (IDSOS) business entity registration:

- Lone Pine Farms LLC, registration W41940 dissolved 2005.
- Replaced by Lone Pine Farms Canyon County LLC in 2006. This different entity holds registration W56978, last updated 1/6/2011.
- Now or later, should record ownership change with IDWR for at least 63-31584.
