Subject: Application to Rent Water

Dear Aaron,

In December, 2008, SPF Water Engineering submitted an *Application to Rent Water From the Water Supply Bank* in the name of Casa Del Norte, L.P. As stated on the application, we are currently waiting for IDWR to process an application for transfer proposing a permissible place of use that includes the acres to receive water bank water. Rather than worry about renewing a rental bank agreement each year while waiting for department processing and approval of the transfer application, we would like to seek rental water for five (5) years instead of one (1) year as currently listed on our rental bank application for the 2009 irrigation season.

Thank you for your attention to this matter.

Sincerely,

John McCallum
for Casa Del Norte, L.P.
