CONDITIONS OF APPROVAL

1. Place of use is within the service area of the City of Nampa municipal water supply system as provided for under Idaho Law.
2. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
4. This water right does not represent a rate of diversion in the City of Nampa's municipal water right portfolio. The diversion rate associated with this water right in combination with all other water rights is limited to the combined diversion rate of all other City of Nampa water rights and the diversion rate of this water right shall not be included in any assessment of the combined diversion rate authority of the City of Nampa both prior and subsequent to the priority date of this water right.
5. Water bearing zone to be appropriated is from 350 to 500 feet.
6. This water right is part of the non-potable water delivery system for the City of Nampa.
7. This right does not grant any right-of-way or easement across the land of another.
8. The right holder shall not assign or sell the right without first securing the written approval of the Department of Water Resources.
9. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

WATER RIGHT NO. 63-31949

CONDITIONS OF APPROVAL CONTINUED

10. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 20th day of December, 2010.
