Micron Technology, Inc. – Boise Site

Dear Mr. Peppersack:

Please find enclosed the 2009 Annual Report for Water Right Permit 63-31183. To fulfill the requirements of Condition #9 of this permit, Micron Technology, Inc. (Micron) is submitting a chart that depicts recharge volumes, diversion volumes, and local area water level hydrographs. The chart indicates continued stabilization and minor improvement in the deep aquifer water level as a result of Micron's efforts to reduce net diversions. If you have any questions regarding this submittal, please contact Michelle Atkinson at (208) 363-4619.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ricky L. Murray'.
