RE: Permit No. 97-7440

Dear Permit Holder(s):

The department acknowledges receipt of the documentation submitted to support removing an owner of the above referenced water right. A water right in the permit stage is considered personal property. A change in ownership can only be processed through an assignment of permit at this time.

Understanding that it would be difficult for you to get this permit assigned over to you by the other owner listed on the permit, the documentation you submitted is probably sufficient to support a change in ownership of the water right when it is licensed.

The department has contacted our northern regional office to request a field examination be conducted during the upcoming summer. You will be asked to submit an ownership change notice with the required fee, which can be processed after the license is issued.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department, or on the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Northern Regional Office of the department in Coeur d'Alene, Idaho at (208) 762-2800.

Sincerely,

Darla Block
Technical Records Specialist
