Subject: SV Homeowners' Association Water Bank Lease Application

Dear Dan,

The following letter is in response to the Department's concern that acceptance of Surprise Valley's Water Bank Lease Application may result in an enlargement in the associated water rights. In your e-mail dated February 16, 2011, you indicated that the information previously submitted, including pump records and an engineering analysis, were not sufficient enough for the Department to determine if enlargement will occur. To address the Department's concern, attached are the following:

1. A GIS photo map indicating the residential and non-residential areas that have access to the Surprise Valley irrigation system. There are approximately 106 acres of residential area and approximately 36 acres of non-residential area. GIS shape files of the depicted residential and non-residential areas will be provided via email.
2. A descriptive list of the 426 residential lots that use the Surprise Valley irrigation system. Average lot size equates to approximately 0.25 acre. Generously assuming 75% irrigable area per lot (i.e, 25% or 2700 square feet non-irrigable), a total of approximately 80 acres are irrigated within the residential areas.

As supported by the information provided, approximately 25 acres of water right (i.e. 141 acres minus 80 acres of residential irrigation and 36 acres of non-residential irrigation) are currently unused and have been submitted to the IWSB for protection from forfeiture.

Please let me know if you have any further questions Dan.

Sincerely,

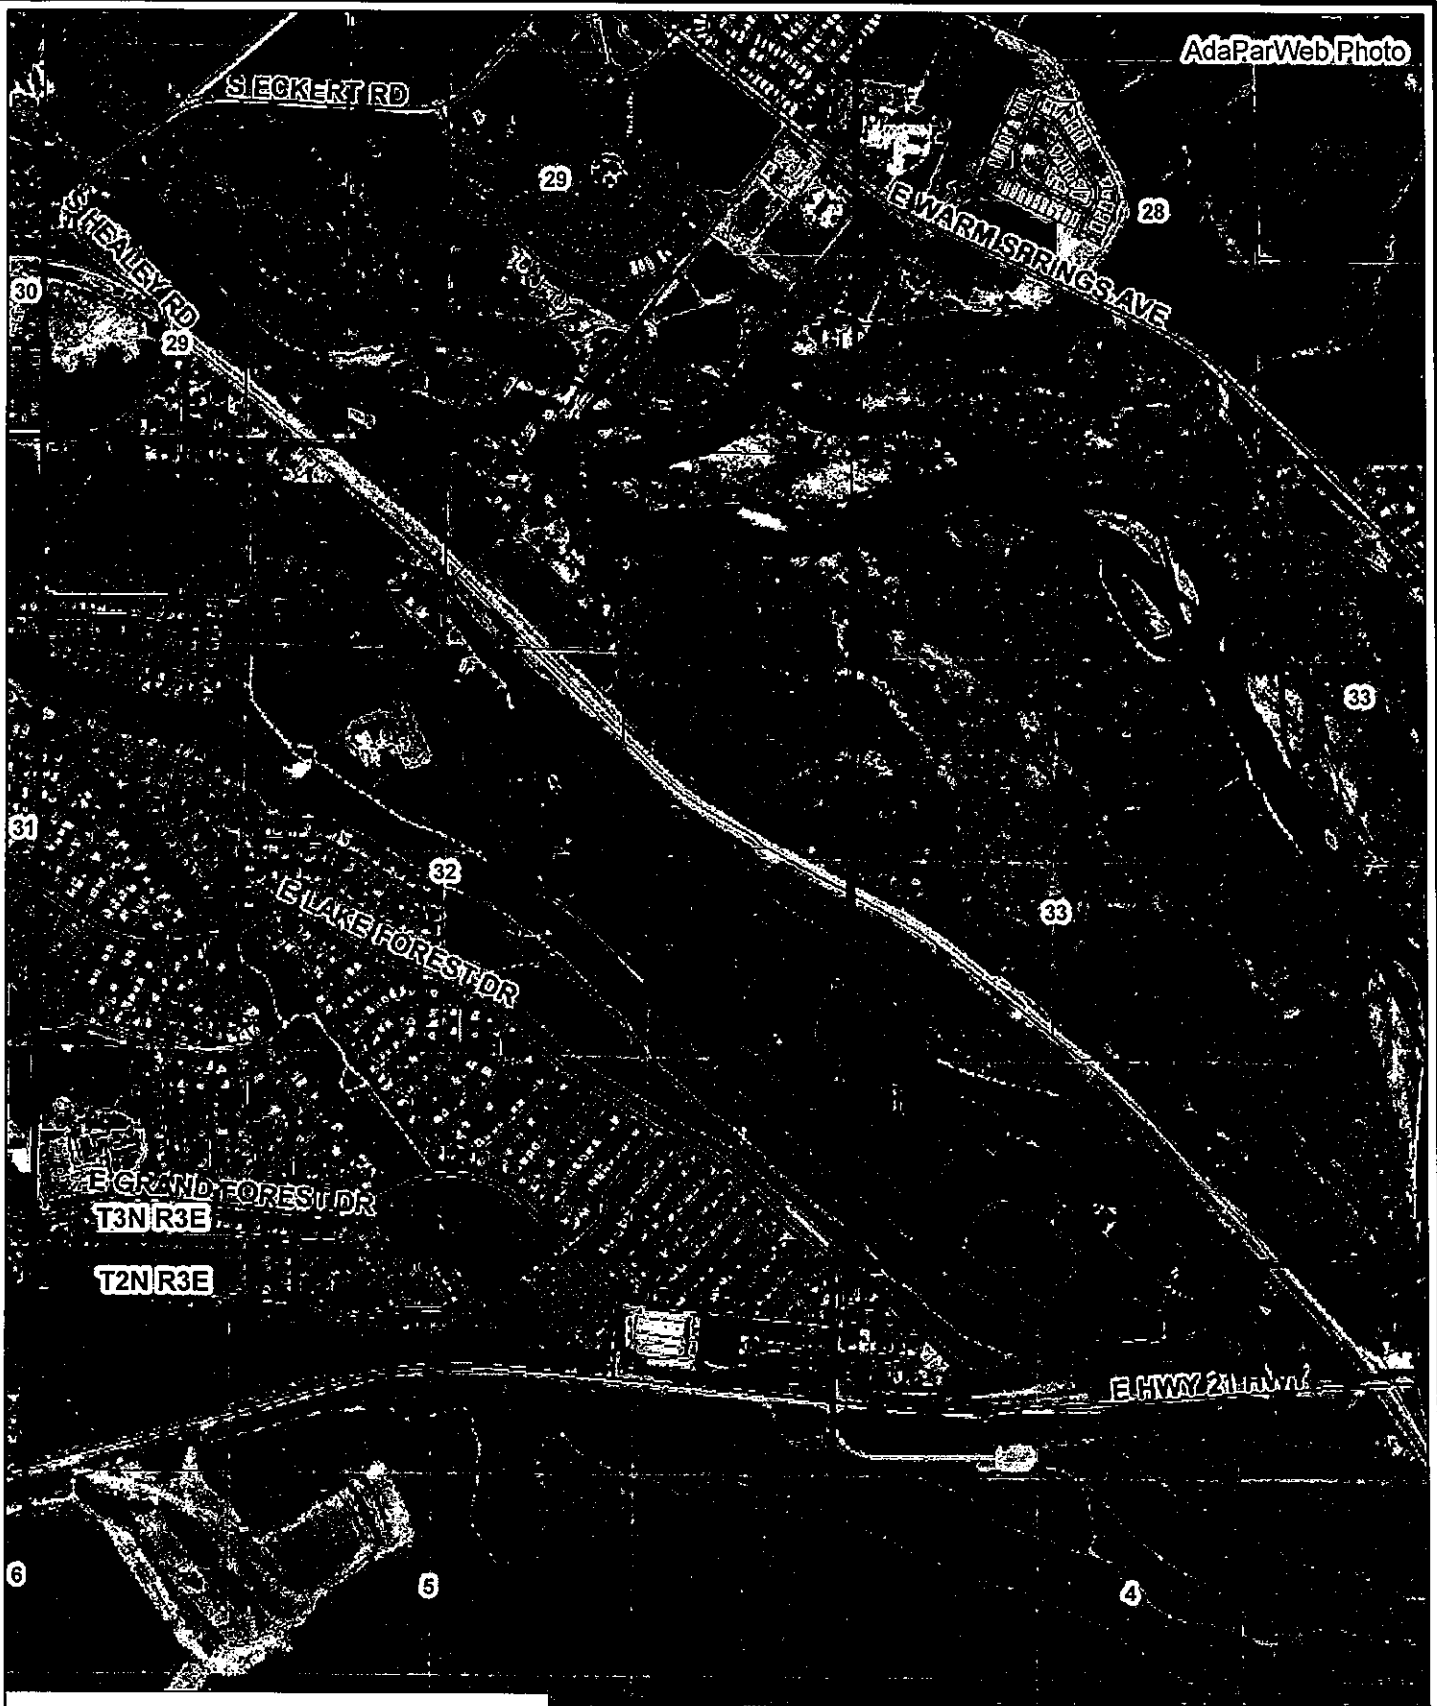

Lori Graves
Water Rights Specialist
