BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof or beneficial use of water. There is a **FILING FEE** of \$50.00 to be included with this form when filed with IDWR.

Permit No. 15-7314 Date Proof is Due: April 1, 2011Name(s) of Permit Holder: David R. MillsAddress: 2345 W Samaria Rd City Malad State ID Zip 83252Telephone No. 208-766-2542 Email: esmills@atcnet.net

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

The irrigation well has been drilled and test pump completed.Costing \$ 37,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

The drilling of the well was started February 19, 2010, and not completed until October 14, 2010. There were problems getting the different drilling rigs back to the well site in a timely manner. Winter weather set in shortly after the test pumping. We have the irrigation systems designed and will move forward with the installation as soon as the weather permits this spring, 2011. We hope to complete by April, 2011, but in case of unforeseen difficulties we are requesting an extension to April, 2014.

Permit holder(s) request an extension to April 1, 2014
