The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Two primary reasons. The first we did a substantial amount of work on the canal due to
sloughing of the hillside to the north of the canal. We have wanted to observe this for several
years especially during a year of above average precipitation. Second I am working with the NRCS,
Idaho Power, & Valley pump in Emmett in analyzing the feasibility of piping the discharge
from the reservoir to the farm fields & converting flood irrigation to pivots. *
