RE: Water Right Permit No. 65-13702

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

 x Point(s) of Diversion (2 wells found)

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days. The \$50 amendment fee has already been received and I have enclosed a receipt for your records.

In addition, this letter serves as an acknowledgement that I have processed the Assignment of Permit that you have submitted.

If you have any questions, please call me at (208) 287-4944.

Sincerely,

Cherie Padilla, Sr. Water Resource Agent
Water Allocation Bureau

*Note that the Assignment of Permit appears to assign the permit to Branch Estates INC. I spoke with Jim Jacobs of Branch Estates and he said his writing should read Branch Estates INC. I checked with the secretary of state to confirm.
