Re: Annual Reporting of Black Rock Utilities, Inc.
Water Usage For Permit No. 95-9045

Dear Sir or Madam:

Pursuant to the *Settlement Agreement Between Black Rock Utilities, Inc. and the Kootenai Environmental Alliance in Regards to IDWR Application for Amendment of Permit No. 72669* dated July 19, 2006 and *Amendment of Permit, No. 95-9045*, Black Rock Utilities, Inc. has been annually reporting total irrigation water usage to IDWR since 2007. Review of our records has revealed that the amount of water withdrawn from the lake has been overstated for 2008, 2009 and 2010 in previous correspondence. Following is the correct amount of water withdrawn from Lake Coeur d'Alene for irrigation and other permitted uses under Permit No. 95-9045 for the fiscal years as shown below:

2010:	172,577,000 gallons
2009:	179,462,000 gallons
2008:	158,539,000 gallons

Please contact me if you have any questions regarding the above information.

Sincerely,

Kyle Capps, CGCS
Director of Agronomy
