RE: 47-152A and continued mailings

Dear Ms Mocroft,

I recall speaking with you about this before and offer this letter as explanation as to what has transpired, why the situation is the way it is and what you can expect in the future.

We have attempted to contact the current owner of the property with copies of forms and explanations as to the importance of keeping the ownership current. That person has not complied. I appreciate that 1) you were diligent and responsible to file the claim in the first place and 2) you are stuck with receiving unwanted mail and that appears to be upsetting to you. State law requires us to correspond to the owner of record and that, unfortunately, is to you and Gerald Martin. I think we are both in difficult positions through the irresponsibility of others.

The bad news is that you will be getting one more piece of mail regarding this matter. The Snake River Basin Adjudication court will be mailing the decree for this right in due course – in the next couple of months. The good news is that since you no longer own the property you can disregard the matter and toss the mail in the garbage after verifying that the mail is indeed from the "District Court, Snake River Basin Adjudication", and it's not some other important matter.

I will be including your recent mail to us and this letter in the water right file for future reference. Please do not suffer the expense of forwarding future mail regarding this to us. I regret the inconvenience and perturbation this has caused you. Thank you and be well.

Sincerely,

A handwritten signature in black ink that reads "Douglas Jones". The signature is written in a cursive, flowing style with a long horizontal line extending from the end of the name.

Douglas Jones, PE
Technical Engineer
Southern Adjudication Unit
