RE: Notice of Change in Water Right Ownership

Dear Water Right Holder:

The Department of Water Resources is in receipt of your change in water right ownership for water right nos. 74-15934 and 74-15936. The ownership of these water rights has been updated and the water rights have been divided. Water right 74-15934 has been divided with your portion being numbered as 74-15944, and water right 74-15936 has been divided with your portion being numbered 74-15945. I have enclosed water right reports for each of these water rights.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing an ownership change notice, the department does not review the history of water use to determine if the right has been forfeited through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Sections 42-222 and 42-223, Idaho Code.

Each water right has a specified point of diversion, nature of use and place of use. If you plan on changing any of these, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. If you do not plan on changing any items on your water right, then no further action is required at this time.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact this office if you have any questions regarding this matter.

Sincerely,

Emalee Rushing
Office Services Supervisor
