Re: Licensing Memo

The location of the POU and PD is located at 403 Bald Mtn. Rd. There is a duplex on the property that is served by the PD that this right authorized. Lawn irrigation can also be supplied by the PD so the volume for this right will include 1/2 acre of lawn and 2 apartments whereas the field examiner did not recommend irrigation. Since the field examiner stated that the PD is plumbed into the irrigation system, the irrigation should be included as follows:

0.3 afa for internal use + 0.6 afa for irrigation = 0.9 afa

Today I spoke with Cindy Curtis & she told me that she sold the property to Jeff Mintz and his # is 726-8658. She also told me that the well never produced much water and the property is permanently hooked up to city water and the well has been closed. Either way development has occurred and the dept. owes the right holder a license.
