RE: Water Bank Applications (Deer Creek Ranch, Inc.) & Request for Expedited Review

Aaron:

I have attached an original copy of the following documents:

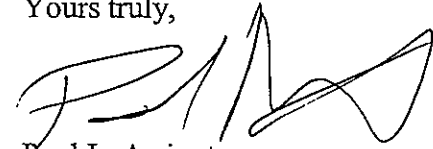

1. Application to sell or Lease a Water Right to the Water Supply Bank for water right 37-5;
2. Application to sell or Lease a Water Right to the Water Supply Bank for water right 37-833R
3. Companion Application: Seeking to place a portion of water right 37-466 in the water bank and lease that water back to Deer Creek Ranch for use on other grounds owned by Deer Creek Ranch during the pendency of a Transfer Application, filed on May 29, 2008.

Deer Creek Ranch requests that review and processing of the Companion Application be expedited to allow for irrigation of grounds around the residence and on the western side of Deer Creek Ranch's property this irrigation season. Deer Creek Ranch does not have any valid water rights for the residence and is unable to use its point of diversion for the water right appurtenant to the western properties (*see* water bank application for water right 37-833R). In addition, it is unclear when the transfer application will be processed and it is highly unlikely that it will be processed in time for Deer Creek to use any water this irrigation season. As such, expedited review of the Companion Application is necessary.
