

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 94-07716

Priority: September 13, 2010

Maximum Diversion Rate: 0.06 CFS

This is to certify, that WARREN GIBBONS
23811 CDA RIVER RD
WALLACE ID 83873
(208) 682-3026

has applied for a permit to appropriate water from:

Source: NORTH FORK COEUR D ALENE RIVER **Tributary:** COEUR D ALENE RIVER
ALENE RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
DOMESTIC	01/01 to 12/31	0.03 CFS
IRRIGATION	04/01 to 10/31	0.03 CFS

LOCATION OF POINT(S) OF DIVERSION:

NORTH FORK COEUR D ALENE RIVER, L7 (SW1/4NW1/4), Sec. 21,, Twp 50N,, Rge 04E, B.M.
SHOSHONE County

PLACE OF USE: IRRIGATION, DOMESTIC

Tw	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
50N	04E	21							1.0										1.0
									L 7										

Total Acres: 1

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **February 01, 2012**.
2. Subject to all prior water rights.
3. This right does not grant any right-of-way or easement across the land of another.
4. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
5. A fish screen of 0.25 inch or smaller mesh shall be installed and maintained at the point of diversion.
6. The approach velocity at the point of diversion shall not exceed 0.5 feet per second.
7. Water shall not be diverted under this right when flows in the Coeur d'Alene River are below minimum flow amounts as defined by Right 94-7341. The right holder shall be responsible for monitoring the daily flow of the Coeur d'Alene River using real-time data and shall cease diverting water when flows in the Coeur d'Alene River are below established minimum flow amounts. Unless otherwise specified by the Director of the Department of Water Resources, data from the U.S. Geological Survey Cataldo gauging station, No. 12413500, may be used for purposes of determining the daily flow amounts.
8. Domestic use is for 1 home. Irrigation of lawn, garden and landscaping associated with the home is authorized under the irrigation component of this right.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 2nd day of February, 20 11.

GARY SPACKMAN, Interim Director

RE: Permit No.94-7716

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-762-2800.

Sincerely,

Keith E. Franklin

Sr. Water Resource Agent

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on February 3, 2011 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO. 94-7716

**WARREN GIBBONS
23811 CDA RIVER RD
WALLACE ID 83873**

A handwritten signature in cursive script, reading "Carolyn S. Monitz", is written over a horizontal line.

**Carolyn S. Monitz
Technical Records Specialist**

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RECEIVED

OCT 13 2010

IDWR/NORTHERN

Dear Keith:

REFERENCE: GIBBONS; 94-7716 (0.03 Domestic/0.03 Irrigation 4/1-10/31)

The North Fork Coeur d'Alene River is managed by IDFG as a quality westslope cutthroat trout fishery and is an important component of westslope cutthroat trout habitat range-wide. It is a very popular fishing destination with local and out-of-state anglers.

Several research and restoration projects have been, and are currently being conducted, on the North Fork and the Little North Fork Coeur d'Alene Rivers. Idaho and neighboring states (MT/WA/OR) have recently fended off a listing of westslope cutthroat under the Endangered Species Act by demonstrating that healthy populations and habitat exist in places like the North Fork Coeur d'Alene River and that the appropriate state regulatory mechanisms are in place to protect them.

Maintaining and protecting riparian vegetation is essential to sustaining healthy fish populations. IDFG is concerned about the negative impacts to the riparian habitat, along the North Fork Coeur d'Alene River. Riparian vegetation has complex root systems that slow stream bank erosion during high flows with well-rooted, woody vegetation that can withstand increased flows more effectively than stream banks that are sparsely vegetated or grass covered. Trees and shrubs provide shade, which is critically important for maintaining the cooler water temperatures necessary for our native trout. Additionally, trees contribute valuable large woody debris in the stream that provides cover for fish and other aquatic species. Furthermore, intact riparian areas provide habitat for a wide range of terrestrial and avian species, from big game to migratory birds.

The State of Idaho has recognized the importance of this fishery by instituting a Minimum Stream Flow (94-7341) to prevent the degradation of instream habitat. Water shall not be diverted under this right when flows in the Coeur d'Alene River are below 1018.00 cfs from November 1st through June 30th and 413.00 cfs from July 1st through October 31st at the confluence of the Coeur d'Alene River and the South Fork Coeur d'Alene River in the NENW, S31, T49N, R2E, Shoshone County, which is downstream of the applicants' property.

Keeping Idaho's Wildlife Heritage

Equal Opportunity Employer • 208-769-1414 • Fax: 208-769-1418 • Idaho Relay (TDD) Service: 1-800-377-3529 • <http://fishandgame.idaho.gov>

Unless otherwise specified by the Director of IDWR, data from the USGS Cataldo gauging station, #12413500, may be used for purposes of determining the flows in the Coeur d'Alene River pursuant to this provision.

We are concerned that the cumulative effects for diversions will decrease stream flows, particularly during the low flow summer months, which can be harmful to this popular fishery and have negative impacts on riparian vegetation. IDFG recommends that the diversion of water occur between April 1 and October 31 (irrigation) unless the Minimum Stream Flow (WR 94-7341), discussed above, takes precedence.

The water intake should be screened to prevent entrainment or impingement of fish. The maximum screen mesh size should be 0.25 inches; intake approach velocities should not exceed 0.5 ft/second to prevent losses of juvenile fish.

Thank you for your attention to this matter.

Sincerely,

Charles E. "Chip" Corsi
Regional Supervisor

Application For Permit No. 94-7716

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the SHOSHONE NEWS PRESS on 10/7/2010 and 10/14/2010. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Keith Franklin

RE: Stream Alteration Permit Application No. 94-7716 – Gibbons

We have reviewed the above referenced application.

The Idaho Department of Lands does not have encroachment responsibilities on this stretch of the Coeur d'Alene River. The proposed quantity of water to be appropriated as shown on the plans will not require authorization from IDL.

Thank you for the opportunity to comment.

Sincerely,

Robert L. Burke
Area Manager

Dear Mary, Carl and Bob:

(I'm not sure if this part of N FK CdA River falls in Mica or Cataldo areas – so I'm trying to cover all bases)

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application is enclosed for your reference.

<<94-7716 Gibbons.pdf>>

This is being scheduled for publication in the Shoshone News Press on October 7 and 14, with final date for protests to be received in our office on October 25, 2010.

Your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

Please contact Keith Franklin in this office if you have any questions regarding the application.

Thank you,

Ball, Dianne
