

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 91-07222

Priority: September 16, 2010

Maximum Diversion Rate: 0.04 CFS

This is to certify, that JENIFER MILLER
1121 PARK DRIVE
ST MARIES ID 83861

has applied for a permit to appropriate water from:

Source: ST JOE RIVER

Tributary: COEUR D ALENE LAKE

and a permit is APPROVED for development of water as follows:

BENEFICIAL USE

DOMESTIC

PERIOD OF USE

01/01 to 12/31

RATE OF DIVERSION

0.04 CFS

LOCATION OF POINT(S) OF DIVERSION:

ST JOE RIVER L12 (NE1/4SE1/4) Sec. 16, Twp 46N, Rge 01W, B.M. BENEWAH County

PLACE OF USE: DOMESTIC

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
46N 01W 16													X				
													L 12				

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **January 01, 2012**.
2. Subject to all prior water rights.
3. Water shall not be diverted under this right when flows in the St Joe River are below minimum flow amounts as defined by Right 91-7122.
4. Domestic use is for 1 home.
5. The irrigation occurring under this domestic use shall not exceed 1/2 acre.
6. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
7. This right does not grant any right-of-way or easement across the land of another.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Coeur d'Alene, this 12th day of January, 2011.

RE: Permit No.91-7222

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-762-2800.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith E. Franklin". The signature is fluid and cursive, with the first name "Keith" being more prominent.

Keith E. Franklin

Sr. Water Resource Agent

Enclosure(s)

CERTIFICATE OF SERVICE

I hereby certify that on January 13, 2011 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO.

91-7222

**JENIFER MILLER
1121 PARK DRIVE
ST MARIES ID 83861**

A handwritten signature in cursive script, reading "Carolyn S. Monitz", is written over a horizontal line.

**Carolyn S. Monitz
Technical Records Specialist**

Statement of Available Procedures and Applicable Time Limits

RESPONDING TO PRELIMINARY ORDERS ISSUED BY THE IDAHO DEPARTMENT OF WATER RESOURCES (To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Good afternoon, Kaisie,

This is one of our REGULAR legal notices ... same normal processing.

Please publish the enclosed legal notice on the dates indicated, November 3 and 10, 2010, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

Please send a proof/preview copy for my review before this goes to press.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 11/22/2010. Your cooperation is greatly appreciated, as always.

This one will need to bill separately from the large e-mail submitted earlier, which is scheduled to publish on November 10, 17 and 24, (once a week for three consecutive weekly issues).

Subject: FW: RE: Application for Permit No. 91-7222 - St Joe River

In reviewing my file, I discovered that I sent this to Mary at IDFG and Carl Washburn at IDL. However, I believe I should have sent it to you – since the source is the St Joe River. (See below.) *My apologies.* I generally send these to IDL primarily as a courtesy copy, to let you know that someone will be drawing water from a source where they might need an encroachment permit from IDL.

This has already published in the St Maries Gazette 11/4 and 11/11/2010. Please e-mail your comments regarding this file, if you have any, either to me or to Eric Davis at our office.

Thanks you very much,

Don't count the days, let the days count.

Application For Permit No. 91-7222

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the ST MARIES GAZETTE RECORD on 11/3/2010 and 11/10/2010. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

RECEIVED

NOV 15 2010

IDWR/NORTH

Dear Eric:

REFERENCE: MILLER: 91-7222

We have reviewed the above-named application by Jenifer Miller to divert 0.04 cfs from the St. Joe River for domestic use.

The St. Joe River contains populations of resident, river run (fluvial) and lake run (adfluvial) cutthroat trout. Historically the St. Joe River has been regarded as among the finest cutthroat trout streams in America. The river has regained that status and trends have shown marked improvements in recent years. Additionally, the St. Joe River also harbors bull trout (ESA listed as Threatened) that migrate through the lower reaches to spawn in the headwaters of the St. Joe River. Annual counts of 15 to 91 redds were made in three index streams of the St. Joe River between 1992 and 2005 with an increasing trend over those years. IDFG manages the St. Joe River for quality cutthroat trout fishing. Bull trout are managed under "conservation" status, to conserve and restore bull trout numbers.

Although the amount requested in this particular application is small (0.04 cfs), we are concerned that the cumulative effects of recreational lot owners applying for diversions may be harmful to this economically and ecologically important fishery. There is a minimum stream flow on the St. Joe River (WR 91-7122) of 470.0 cfs from August 1 to October 31, and 941.0 cfs from November 1 through July 31. The applicant should be made aware that their diversion cannot negatively impact the established minimum flow in the St. Joe River. Because water right diversions allow water users to manipulate streams, we recommend this permit be conditioned to require no disturbance to the stream channel. If pumps are used, they should be adequately screened to prevent entrainment and/or impingement of juvenile trout (we recommend ≤ 0.25 " mesh, with approach velocity of ≤ 0.5 feet per second).

Thank you for your attention to this matter.

Sincerely,

Charles E. "Chip" Corsi
Regional Supervisor
