RE: APPLICATION TO LEASE WATER RIGHT NO. 65-4002X

Dear Applicants:

The Department of Water Resources (Department) received your application to lease part of Right No. 65-4002X on July 11, 2007. Please accept my sincere apologies for the long-delayed response.

I have a few questions concerning your application for lease. First, do you want the Department to move forward with processing it? If so, we need some additional information before the application is sufficient.

Your application seeks to place 0.145 cfs of water from springs into the Bank. 65-4002X was decreed for a total of 0.45 cfs and 1.20 acre feet per year (AFY) for irrigation (0.02 cfs), domestic use for 1 home (0.04 cfs/1.2 AFY) and heating (0.45 cfs/1.2 AFY). Your application does not specify which uses the 0.145 cfs would come from. The Department needs this information, as well as an estimate on the volume that was previously used in conjunction with those uses.

The Department can not accept any portion of the right into the Bank until we have the information requested. I am returning the application to you so you can fill in the needed information and resubmit it when you have the requested information. I am also including a copy of our new lease application, which may assist you.

Please contact me at (208) 287-4907 if you have any questions.

Sincerely,

Monica Van Bussum
Sr. Water Resource Agent
