Subject: Application to put water in WSB

Hi, Aaron. I am reviewing an application for transfer of water rights for Ralph Mellin and find that Rt. 63-32655 in the name of Shawn Mikelson shows up as an overlapping right at the place of use. The data base shows that Mr. Mikelson applied to put this right in the WSB in December of 2008. Could you tell me what the status of his application is? Should this right still be considered as an overlap at Mellin's place of use? Any information you can provide would be appreciated!! Thanks. Kay
