Subject: RE: Timberline-KDB

Thank you! I forgot the email had come through Lori, and she did not forward it! Explains why I couldn't find it....

Yes, SPF filed an application to lease the Timberline water rights to the bank. Here's the chronology, as I recall:

1. Timberline submitted the lease application in 2008
2. Timberline sold a portion of the water rights to KDB in 2009
3. KDB used a portion of their rights to mitigate a new application, and
4. KDB submitted applications to lease their remaining portion of the original rights to the bank.

We would like IDWR to place Timberline's portion of the original right(s) in the bank, along with KDB's portion of the rights not used for mitigation. Can you use the two sets of lease applications and the change in ownership documentation to accomplish this? Or do we need to amend the Timberline application? The KDB applications are correct.

Hi Roxanne,

I sent an email to Lori on 11/17 that said,

"I am looking at some Water Supply Bank lease applications from late 2008 for Timberline Development for the above-mentioned rights. It looks like they wanted to place all of the rights in the Bank. In December 2009, Western processed an ownership change that split 65-2399 into 65-23370 and 65-23371, and split 65-3185 into 65-23372 and 65-23373. It looks like right ownership was split into Timberline and KDB. Can you find out what they want put into the Bank? I can always return the apps and ask them to reapply but I'd rather try going through you first."

So we have the lease apps submitted by Timberline and I need to know who wants what put into the Bank. I can return the apps and folks can refile if that will be cleaner.

Monica,

Unfortunately, I've lost the email thread here, so don't remember your specific question. I don't immediately see anything wrong with the applications. KDB purchased the water rights from a developer and is trying to place the unused portions in the bank, after using some for the mitigation of permit 65-23098. What am I missing?

Yes, that's fine. I'll hold until Monday the 29th and return it if I don't hear anything by then.

Thanks, Roxanne!

Monica,

I'll pull the application and check. I believe some of the water has now been used by KDB for mitigation. Unfortunately, I don't have time to look into it right now. Can I get back to you next week?
