Subject: letter and transfer application 45-4138

Steve,

Enclosed is the letter for P&Z. See if it meets the requirements and let me know if I need to make any changes. There is a map which shows only one recorded well which appears to be within a mile. Is that the radius they needed?

Also enclosed is the transfer appl. Look it over, sign it, and return it with the required fee of \$100.00 so we can actually file it. (On page 4 there is a question which asks if the property is subject to any liens mortgages or contracts? Answer it and if there are, we will need a letter from the lien holder on their letterhead stating that they are in agreement with the transfer.) Received the deeds from Land Title. There were quite a few pages so I haven't had a chance to check them over yet, but hopefully they cover all the property.

Give me a call or shoot me an email if you have any questions or if I have forgotten anything.

Jeanie

RE: Your Property Located in Cassia County - T14S, R22E, Sec 13 & 24; R23E, Sec 18-20

Dear Mr. Manning;

This letter is being written per your request in order to satisfy P & Z requirements for a proposed cafo facility.

A search of IDWR records showed stock water right 45-4138 to be appurtenant to the property. This right has a point of diversion located in the SWSWSW of Section 21, T14S, R23E. A search of nearby wells showed only one in the NENE of Section 21, T14S, R23E.

If I can be of further assistance, feel free to contact me.

Sincerely,

Jeanie Robertson
Sr. Water Resource Agent
