Subject: FW: Watermaster Comments for Water Bank Leases

Monica,

Here are the Trail Creek Meadows Ranch watermaster comments. Could you print it out and place it in the file. These are the files you are returning to Jim Speck.

Thank you.

Dan,

I have no objections to any of these.

Rex

Subject: Watermaster Comments for Water Bank Leases

Hello Rex,

I am working on water bank leases for Trail Creeks Meadows Ranch water rights 63-2414 (Trail Creek), 63-5034 (unnamed stream – tributary to Trail Creek), and 63-5047B (Trail Creek). We have been asked to attain Watermaster comment on all water rights that are being placed into the water bank. None of these water rights have been rented from the water bank, and you will be contacted should that situation occur. This request for comment is simply to see if you are opposed to placing these into the Water Bank and making them available for future rental. I have included proof reports of these water rights for your review.
