RE: Place of Use

I prepared the transfer map for Merrill Beyeler's water rights from Canyon Creek and Big Timber Creek. In the Leadore area there is a discrepancy between the GCDB and the NAIP 2009 coverage. For example, the line between 16N26E Sections 27 and 28 should parallel the road. It is my understanding that Merrill Beyeler owns all of the property that he is proposing to irrigate under this transfer. In order to depict the proper acreage, I identified the new place of use by drawing around the irrigated fields according to the NAIP coverage. I then shifted the place of use to fit within the property boundaries as they appeared in the Lemhi tax lots which match the GCDB.

If you have any questions about the map, please let me know.
