Debbie,

I will be mailing out the Amendment for Licensing for 65-13824 and 65-13825 today, for changes in the place of use and point of diversion which were confirmed during the field exam. The cover letter being mailed out today for each of the water rights states to "sign the form and return it with the \$50 filing fee within 14 days." As per our conversation this morning, it will be fine to return all three amendments for licensing at the same time, granting an extension for 65-13823.

If you have any questions, please contact me directly.

Thanks,

Sandy Hemenway

Hi Danni,

I hope all is well with you.

It has been several years since I conducted the beneficial use examinations for these water rights. Since that time, both the Barnes' ranch manager (my contact for these water rights) and the water rights attorney (Angela Schear of Moffatt Thomas) have ceased to be involved with the water rights. I was told by the ranch manager (related to the Barnes family) several years ago, that there had been some schism within the family, he was displaced off the ranch, and that the new manager would no longer require my services.

I have not been contacted by Lenora or any representative of the Barnes family in connection with IDWR's communications to the Applicant in this matter. Similarly, I have not been contacted by a water law attorney. Therefore, I have no involvement with these rights and no authorization to act on behalf of the Barnes family. If contacted by the Barnes, I will gladly assist in the finalization of these water rights but, until such time as I am retained to work for the applicant, the Department should probably cease to copy me on the related correspondence. Also, and unless I am hired by the family, IDWR should not expect that I will reply to requests for information or action with respect to these water rights.

I hope you are having a wonderful holiday and I wish you the best for the New Year.

Ed

Postscript: Danni, you know I would do a favor for you anytime and without you owing me lunch. Less paperwork is always better.
