RE: Phone Conversation to Confirm Diversion

Today I spoke with Gary Landy with Project Patch in Garden Valley. He confirmed that the pond is fed by a channel that is directly diverted from the Payette River. He said there is no pump in place so when water is high enough to enter the channel the pond gets fed.

Gary stated that the address for corporate offices has changed. I confirmed through IDSOS that Project Patch has a new address and updated the database pursuant to the IDSOS's annual report for Project Patch.

* Gary indicated that there is only one pond at the Project Patch.
