Re: Amendment of Water Supply Bank Lease

This approval amends a lease approval signed January 5, 2010, by Aaron Marshall. 45 acres of both rights were approved as leased to the Bank on August 27, 2007. On January 21, 2009, the Department received an application to lease the additional 100 acres, for a total of all of both rights, to the Bank for an indefinite period. I do not see a review memo but I assume the reviewer thought the lessors were amending their lease to be for 100 acres instead of the whole POU of 145 acres.

Allen Merritt met with Katie Breckenridge at the Southern office today and confirmed the lease should be for 145 acres, all of both rights. I have written the amended approval to reflect a lease date of May 1, 2009, for an indefinite period to reflect what should have happened back in 2009.
