Attachments: PIC Water Bank App for One Year 12 29 2010.pdf

Monica,

Please find attached our application to enroll 10.5 cfs for the irrigation of 600 acres into the Idaho Water Supply Bank. Out of an abundance of caution to make sure you get this prior to January 6th, 2011, we also mailed two hard copies to you—one by certified mail and one to your POB.

As you'll see, this is not the "companion" application arrangement that we had previously described wherein Portneuf Marsh Valley Canal Company would be simultaneously leasing the water. This is still our primary desire, but the politics of the negotiation on our canal combination agreement prevented our getting the job done in time to file this year. I am still hopeful that in the next 45 to 60 days, we will be coming to you to substitute "companion" applications for this one that we are sending you today.

Please let me know if you have any questions or concerns.

Best and Happy New Year!

Chris
