The water for this permit is drawn from the groundwater out of well #19. The water then runs through a buried pipeline due north for 125 ft where it combines with the water from license #10-109 out of well #17. The water then continues on another 390 ft where water from the restaurant is diverted. The water then travels to the back of the motel to pump #12. At pump #12 all the remaining water, for license #71-071 is drawn out. Then water then travels 1250 ft north east to the main line at the dorms. The dorm consist of 3 double wide trailers.

E. NARRATIVE/REMARKS/COMMENTS

The water for this permit is drawn out of well #19 located in the SE 1/4 - NW 1/4 - NW 1/4 of section 10, township 10N - range 13E. This well sits between two other wells used by the Stanharrah Corporation. The water from well #19 is then diverted into a underground pipe that travels northwest approximately 140 feet where it is intersected by the a pipeline from well #17 (water from well #17 is for the license # 71-07109). This underground pipe then continues on to the northwest for approximately 410 feet, going underneath Highway 21 to the Mountain Village Lodge hotel complex. At this point water is drawn out of the underground pipe and used in the Mountain Village Lodge Restaurant (this use is covered under license # 71-07109). The remaining water continues on in the underground pipe for
