Describe the reason for the proposed changes

This application dries up irrigated land that we own in order to provide water for the expansion of an existing feedlot that we bought a couple of years ago. The existing feedlot well will provide water for the facility, and two nearby domestic wells currently tied in a common network as a backup source will be recorded. No new wells will be drilled. The land being dried up will also be converted to dairy use under a separate application. The application also corrects location of right 43-13535 since use extends into an adjacent tract.

4. FOR CHANGES IN NATURE OF USE ONLY**A. Describe the expected quantity of the return flows and location of discharge after the proposed change**

There should be no return flows.

B. Describe the effects on other water uses resulting from the proposed change

Irrigation use will be reduced so water can be used in
