PO BOX 1841 (for 38 Cattail, Lot 3, and 4 in the Landings Subdivision)
Priest River, ID 83856

RE: Licensing Review Questions for Water Right 97-7395 Toly

Dear Residents,

I am currently reviewing the file on Water Right 97-7395 for the Licensing purposes of the water system for Domestic and Irrigation use. On the attached Water Permit Report, it shows the current owner as Howard Toly E 1202 Front Ave., Spokane, WA 99202, yet I am unable to contact Howard Toly directly. The Tax Lot information shows each of you listed above as the owners for an individual lot(s).

I have enclosed a copy of the water permit report, and a copy of the map showing the location of the presumed place of use (outlined in blue), the point of diversion (well location signified with the pink dot), and a map showing the tax lots (outlined in green).

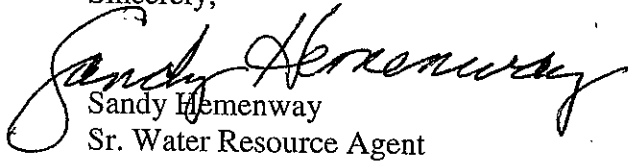

Here are the questions that I have, and I have included a map that you can draw on to return with your answers:

- (1) On the map, please outline where your property is actually located. Since there has been some shifting with the tax lot information it is hard to tell on ArcMap.
- (2) On the map, please draw and label the location of the well that serves your house.
- (3) On the map, please draw and label the location of the 2" main.
- (4) If you know the location and size of the pipe going from the 2" main to your home, please draw and label the pipeline going to your home.

- (5) Please draw and label the location of your house.
- (6) When was your house built there in Landings Subdivision?
- (7) Do you irrigate your yard/garden?
- (8) If you do irrigate your yard/garden, how do you irrigate (pressurized system, hydrant with hose and sprinklers, etc)?
- (9) How much acreage would you say you irrigate?
- (10) Is your irrigation system connected to the same water system as your domestic internal system?
- (11) Do you have any other water sources for irrigating your yard (i.e. city water, or an irrigation district)?
- (12) Do you have any storage tanks included on your water system, either individual or as a community storage tank?
- (12) What pressure (psi) does your water system run at?
- (13) Do you know if the 2" main is used as a means of storage or not?
- (14) What would you say is the average number of days per year that you reside at this location?
- (15) If you own more than one lot, do you irrigate: (a) less than ½ acre per lot, (b) do not irrigate at all, (c) irrigate less than ½ acre on one lot, and nothing on the other, or (d) if different from anything above, please explain: _____

If you have any questions, please contact me directly at (208) 287-4920, or via my email: Sandy.Hemenway@idwr.idaho.gov.

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent
