DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources considers this form a statement by the permit holder(s) that development of a water right has been completed and that water has been applied to beneficial use to the extent described below. This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner. Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, please contact any Department office or visit the Department's website at: www.idwr.idaho.gov for an Assignment of Permit form. If you wish to relinquish your permit because you have not established the authorized use of the water and are not applying for an extension, please notify the Department in writing.

- Permit No.: 11-7051 Telephone No.: 208 847 1537
- Name of Permit Holder(s): Charles Lee Nelson
- Mailing Address: 1950 Bench Rd City: Montpelier
State: Id Zip: 83254 Email: _____
- Source of Water: Well If GROUND WATER (well), Date Drilled: mo. 11 / yr. 72
Well Driller: Wootake Drilling Permit Number: _____
- Extent of use(s) completed (as authorized by the water right permit):
Domestic (No. of households): 2 Stockwater (No. and type of stock): 100 Beef Cows
Irrigation (No. of acres): 65 Other: _____
- Total rate of diversion or storage volume for which proof is submitted: 1.38 cfs OR _____ acre-feet.
- Compliance with a measuring device requirement, lockable controlling device requirement, and/or other conditions of permit: Refer to the approval conditions on your permit and respond accordingly. The Department will not issue a license if permit conditions are not met.

Measuring Device: Is a measuring device required? Yes ☒ No ☐
If yes, has the measuring device been installed? Yes ☐ No ☐

Lockable Controlling Device: Is a lockable device required to control the diversion? Yes ☐ No ☐
If yes, has the lockable device been installed? Yes ☐ No ☐

Other Conditions of Permit: Do the approval conditions on your permit require you to submit additional information in connection with your proof of beneficial use? If yes, list the conditions below and attach documents with the required information.

Completed? Yes ☐ No ☐

- Fee Enclosed: \$ 125.00 See fee schedule on back of the instructions for filing proof of beneficial use. Proofs filed without an appropriate fee, will be considered incomplete.

- Person to contact to accompany the Department representative during field examination of the water system.

Name: C. Lee Nelson Telephone Number: 208 847 1537
Mailing Address: 1950 Bench Rd City: Montpelier
State: Id Zip: 83254 Email: _____

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to a beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Signature of permit holder: C. Lee Nelson Date: 7/28/10
(Include your title, if on behalf of company or organization)

DEPARTMENT OF WATER RESOURCES

August 2010

To Idaho Dept. of Water Resources;

In December of 1976 I purchased property, 225 acres or about, from Mr. Weston Martineau located in Bear Lake Co, Idaho which I understood was all irrigated.

Included as a part of the purchase were the pump, mainline, 4 wheel lines and 2 or 3 hand lines and the water rites associated with the property.

In 1977 I purchased more wheel lines and put them to use on the property. At that time I contacted I.D.W. R. To have the water license changed to my name and heard nothing in response so I, incorrectly I guess, assumed that everything was taken care of. I have been irrigating the full 220+ acres for the past 33 years and thought everything was in place and the way it was supposed to be until I received your notice a week or so ago. After contacting your Department I have contacted the Farm Service Office to try to get a crop report for 1977 or 1978 with no success so I have gone to my farm books and found check register for 1977, a copy of which I am including, which shows payment on the wheel lines I purchased that year and the payment of part of the power bill to run the electric pump to pump the water. Also included please find statements signed by a couple of my neighbors who are familiar with the property and the way it has been run for the time that I have had it.

Please reference IDWR water rite number 11-7025 which allows the irrigation of 153 acres, which is presently in Weston Martineau's name, and ground water permit 11-7051 application to irrigate an additional 65 acres and culinary water.

Enclosed please find an application and fee to transfer this water license to my name.

The other materials enclosed are to show that beneficial use of the additional water took place in 1977 and has been continually since that time.

I hope that this satisfactory.

If you have any questions, please contact me at my home phone—208-847-1537 or by mail at -1950 Bench Rd.

Montpelier, ID
83254

Sincerely,

C Lee Nelson

DEPARTMENT OF WATER RESOURCES

To Whom It May Concern:

In 1977, I was employed at Montpelier Milling Co. in Montpelier, Idaho where we cleaned grain for planting and provided other services for the farmers in the area including running a grain elevator for the Pillsbury Co, to receive grain at harvest time.

I also live very near the property that Lee Nelson purchased from Weston Martineau and began farming in that year.

I can state with a very high degree of certainty that Mr. Nelson purchased enough seed to plant 220+ acres of irrigated farm ground. I also witnessed that all 220 acres were irrigated that year and have been each year since that time.

Mr. Nelson in the fall of 1977 delivered enough grain to the elevator to have harvested at least a fair crop from 220 acres of irrigated ground.

DEPARTMENT OF WATER RESOURCES

I hereby state that to my knowledge and observation, the whole 225 acres purchased by Lee Nelson from Weston Martineau in 1976, has all been irrigated from the well located on the said property continually from 1977 to the present time for each growing season. Domestic water has been used intermittently 1972 until the present time
