RE: Transfer 76877

Dear Mr. Vaughan,

After further investigation of your transfer application, it was determined that water right 29-348G will need to be included in this transfer in order to update the place of use. Changes to reflect the addition of the extra water right has been made to your application for your convenience. Since water right 29-348G lists both Shelley and you as owners, you both will need to sign the application and return it to the office. Review the enclosed map depicting the proposed place of use that was created from the one you sent to me.

If you have any further questions, please call me at the office. If the Department does not receive the necessary information within 30 days we will return your application will voided and returned.

Sincerely,

Denise Kidman
Water Resource Agent
