

MEMORANDUM

Date: January 13, 2011
To: Water Right File 37-8572
From: cpadilla
Re: Licensing Memo

This right is being licensed based on the field examiners findings. Overlapping right 37-13185 is also for domestic use but is from groundwater. ~~In order to avoid the two rights exceeding the domestic exemption, a combined limit will be used in the conditions.~~ *NA, not limited on permit. 4p*

This right was not developed to include irrigation, only in-home use. The POU will include the home only.

It appears that the right holder may be irrigating $>1/2$ acre per 2009 imagery. The license cover letter should include some language that reminds them that they are only allowed to irrigate $1/2$ acre.
