Good morning Monica –

Well I have the final word, the entire right 37-7465A is to be sold. The new owner wishes to proceed with the amended water supply bank application which you should soon receive from Mr. Bowman. SOOOO... as soon as the sale is final I will get the water right change in ownership collected. If you have it processed by then, will you just notify the new owner that a portion of the right is in the bank? Will he have to affirm that he wants to keep the lease? (I have recommended he leave the right in the bank for now to avoid accruing forfeiture).

c.

OK, back to business. Neal Bowman came in yesterday and we revised his WSB application. I realized mid-way through that since he's acquired the property from his brother we needed the quit-claim deed that he had the first visit but I did not make a copy of. So, he's going to fax that to me today then I'll get the amended app in the mail to you. Thanks for your help.. Any predictions at this point when you'll get to this lease? The gentleman that is buying the balance of the right, might also end up purchasing this leased portion too, but I think he would keep it in the bank for the time being. So if that happens I'll just let you know.

BOWMAN (lease)

37-7465A has been acquired by Wallace Neal Bowman (he bought out brother Gary). He wants to proceed with the lease. The portion which is NOT being offered to the bank is being sold. The right will be split. Neal Bowman will retain ownership of the banked acres. In order to make the split consistent with the lease I need to know what acres are on the application. Can you please send me a scan of the application?
