Subject: Request for NIA Claim Review, 95-11027

Bob,

I am working on Transfer No. 75969 which proposes changes to Claim No. 95-11027, filed by Lutherhaven Ministries. Since the claim is based on beneficial use and has not yet been verified, I cannot proceed with the transfer application. I would like to request review and verification of the claim to establish its validity. All documents associated with the transfer here at the State Office are scanned and profiled to the claim number. I am particularly interested in documentation to establish the priority date, diversion rate, and extent of beneficial use. The claim is for municipal purposes. If Lutherhaven Ministries is a municipal provider, then DEQ may have some information available about the water use and at least a Public Water Supply number. Please let me know if your staff can review this claim so we can proceed with the transfer. Thanks for your help.
