

MEMORANDUM

Date: December 27, 2010
To: Water Right File 11-4226
From: medl
Re: new POD

Notice 11-7635 of Diversion for Instream Stockwater Use acted as a transfer on this claim by adding a point of diversion. That notice was not an independent water right so it was not correct to create a new file. Documents provided for notice 11-7635 have been merged into this file. The application layer POD shape created for 11-7635 has been added to the authorized PODs for this claim.
