Subject: Star Sewer & Water District, Permit 63-31969 -- fyi

Hi Aaron:

Am sending you a copy of a letter for Star S & W – for permit 63-31969 that has pending amendment 72866. Apparently the service area issue in that amendment remains unresolved.

Meanwhile, Star is pursuing another new right for RAFN, 63-32644 (no scanning yet). Will have to digest some additional info they provided before can process 63-32644 & will let you know if something in the info triggers any flags regarding 63-31969.

I have added 63-31969 to list of exams for Western to pursue this year if possible. I will get in touch with you later this spring/summer to see if we can coordinate an exam, might be a good training opportunity for staff in both our offices.

So, more fun with Star S & W!

Steve
