WELL DRILLERS REPORT

Information provided to Ron Paul per 8/10/2010 office visit:

Is attached report for your well?

Original report received 11/22/1993 identified well in NW NW Section 32, no well site address was listed. This location is about 1 mile slightly southwest of your place.

Second report received 11/29/1993 added well site address at 4800 Willow in Stillwell Estates.

There is no street named Willow in NW NW Section 32.

IDWR database also lists Yvonne Hayen as representative (for Stillwell?) regarding this report.

Contact Phipps Well Drilling (465-4444) to see if they can help.

If this is your well, you owe IDWR \$165 to upgrade drilling permit fee to use domestic well for irrigation proposed in your water right application. This will be a requirement if your water right application is approved.

Re: Application for Permit 63-33407 and Drilling Upgrade Fee

Dear Mr and Mrs. Paul:

Your recent water right application proposes ground water use from a well. All wells drilled in Idaho after June 30, 1987, require well drilling permits. According to the records of Idaho Department of Water Resources (IDWR), your well was drilled in 1993 under a \$35 domestic well drilling permit. The drilling permit for a single-family domestic well does not require water right approval from IDWR.

The application you recently filed proposes an irrigation use from your well which does require water right approval, and your water right application seeks that approval. The well drilling fee for a well requiring a water right is \$200 instead of \$35. IDWR must collect the unpaid balance of \$165 for a well drilled under those circumstances.

I will continue to process your application, however, it will not be approved until the upgrade fee is paid. Please remit \$165 to upgrade your well drilling permit within the next thirty days to facilitate processing of your water right application.

Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Sincerely,

Vicky Music
