REQUEST FOR ISSUANCE OF A DOMESTIC DRILLING PERMIT
ALLOWING A PRODUCTION CASING SIZE EXCEEDING SIX (6) INCHES

TRADITION Custom Homes/INC. will be the Well Owner and requests approval of a Drilling Permit for "domestic" purposes. If approved, the associated drilling permit authorizes construction of a well with production casing size exceeding six (6) inches in diameter. Domestic use is defined by Section 42-111, Idaho Code.

"Domestic purposes" or "domestic use" means:

- A. The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half (1/2) acre of land, if the total use is not in excess of thirteen thousand (13,000) gallons per day, or
- B. Any other uses, if the total use does not exceed a diversion rate of four one-hundredths (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day.

Domestic purposes or domestic use does not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in subsection B above.

This request is made for the construction of a 8" inch diameter well for the following reason(s):

- ☐ A larger casing diameter is necessary due to the limited productivity of water bearing formations expected to be encountered.
- ☐ The pump or diverting works to be installed requires a larger production casing diameter.

☒ Other: WE WANT TO PUT A DOMESTIC 4" PUMP AND A 4" WINDMILL PUMP. I ALSO AM APPLYING FOR DEEP WATER RIGHTS. IF AND WHEN THEY GET APPROVED, WE WOULD LIKE TO USE THE 8" WELL TO WATER OUR ACREAGE THAT WE WOULD USE AS PASTURE FOR LIVESTOCK.

I attest that I will be the owner of the well as I own the property on which the well is to be constructed and will be responsible for the lawful use and maintenance of this well.

I understand that use of this well for any purpose other than "domestic" may constitute a violation of both State Law and Administrative Rules.

Hello Kay-

I discussed the Water Bearing Zone with Jeff at Precision. We have the pump serving the residence now and will put in one for irrigation after our application is complete with you. For both pumps, we plan the water bearing zone to be from 160 to 280 feet. The well is nearly 500 feet deep.

I assume you have the notarized Assignment of Application that I faxed and then mailed.

Please let me know if you need anything else.

Thanks,
