RE: Licensing Review Memo

Time Line:

Application for Permit Received: 10/20/99

Permit Approved: 4/17/00

Proof of Beneficial Use Received: 4/20/00

Field Exam Conducted: 7/21/00--No field exam conducted. Used info. from overlapping right 65-12332

~~*Note that no proof fee was received. It appears that we took the right holder that no fee was due per 4/13/99 letter by the right holder.~~ → No BU fee required.

Conditioning:

Comment	Water Permit Condition Report
Carry to license	Domestic use is for 1 home.
Doesn't carry to license	046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
* Lot 6 is already covered by decreed right 65-12332, this right should cover Lot 5	Point of diversion and place of use known as Lot 6, Blk. 3, Subdivision 7, Crown Point Subdivision.

POU Overlap Analysis: None

PD Summary:

Tag #	Location	Rights that Use PD	Uses
None	SWNE of Sec 14 14N 3E	65-12332 and 65-13921	Domestic

Volume and Diversion Rate: Standard rate and volumetric limits apply. There will be a combined use limit with the diversion rate of 0.04 cfs as the well is only capable of producing 0.04 cfs.

Amendment Needed?: Yes. The POD and POU are in the SWNE of Sec. 14, not the NWSE. The map that was submitted with the application showed the SWNE as the correct location but for some reason the application was filed with the NWSE QQ. Decreed right 65-12332 incorrectly has the QQ as the NWSE and should be corrected at some point.

* Since Lot 6 is already covered by 65-12332, this right will cover Lot 5 since it was meant to be covered. See 12/1/99 Memo. CP
