The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right and file proof of beneficial use of water. There is a FILING FEE of \$50.00 to be included with this form when filed with IDWR.

Permit No. 57-11677 Date Proof is Due 1 Dec 2010

Describe what work has been completed toward the development of this water right:
 (This must be filled out! If no work has been completed, show "none".)

Approx 100 acres (marsh) 75' x 150' by 10' deep has been completed and trees
planted and fish put into free flowing ponds. Approx an area 150' x 230'
x 10' deep has yet to be completed. Owing to necessity of building pad, excavating
logging area and repositioning of dirt to higher ground is very time consuming
with only one backhoe to do all work. Costing 10,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

As noted Above, All work is done with 1 backhoe. I am attempting to stay
within Corp of Engineer and Environmental guidelines. To accomplish this task I
must work year round but am limited by time. Regret from not to freeze or
dry. Then all dirt must be moved to Reclaim waste land while producing free
flowing ponds.

Permit holder(s) request an extension to 1 Dec, 2015.
