Mr. Barrus,

RE: Transfer 76646, 45-02549 et al, David & Susan Beck

Attached is the transfer drafted by Mr. Merritt which includes 3 changes that I have made as described below. Also attached is the Agreement which will accompany the filing of the transfer. If this arrangement is acceptable to your client, then please acquire your clients signatures, attach a check for the transfer, and return everything to me, whereupon I shall sign and file the packet with IDWR.

TRANSFER EDITS:

1. I have checked the box "yes" under item 1 in answer to the question "Will this transfer result in an ownership change." The redefinition of the places of use will now entirely describe BLM land under water claims 45-14303 and 45-14305 (expansion) which have been split from 45-13908 (formerly 45-13445) and 45-13906 (formerly 45-11121) respectively, which did not previously describe BLM land.

2. I have also edited the "reason" for the transfer under item 3:

Merritt's 08-10-10 draft stated the reason as follows:

Describe the reason for the proposed changes

Associate water rights on leased BLM property and to create a PPU for Beck Rights. Also describe interconnected well network for both Beck and BLM rights served by five existing wells.

Price 09-24-10 version:

Describe the reason for the proposed changes

Transfer water onto BLM land associated with a previous land use authorization (Sike's Act) to farm public land and to create a PPU for Beck Rights. Also describe interconnected well network for both Beck and BLM rights served by five existing wells. This transfer maintains title in the name of the United States to 45-13786 and 45-13446 and also seeks to change ownership from Beck to the United States for 45-14303 and 45-14305 pursuant to an Agreement filed simultaneously with the transfer.

3. I have added a signature line for BLM on the transfer.

Fred Price

Subject

Beck/BLM T76646

Mr. Beck visited my office yesterday. During the visit we modified the POU for his rights changing the location slightly of a couple of corners he would cover. Attached is the revised application.

I understand that Mr. Price may have further revisions that may be incorporated in finalization of the application.

During our visit we talked about the recent NOV letter from Tim Luke. I suggested that Mr. Beck and Mr. Price get together and finalize the transfer application and also get with Tim Luke to schedule a compliance conference (likely by phone). I understand Tim will be available early next week.

Allen
