Conditions/Remarks:

1. This water right is subordinate to all water rights with a priority date earlier than April 12, 1994, that are not decreed as enlargements pursuant to Section 42-1426, Idaho Code. As between water rights decreed as enlargements pursuant to Section 42-1426, Idaho Code, the earlier priority right is the superior right.
2. This right is limited to the irrigation of 66.3 acres within the place of use described above in a single irrigation season.
3. This right is based upon an enlargement of Right No. 45-14303 pursuant to Section 42-1426, Idaho Code.
4. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

5. Rights 45-14303 and 45-14305 when combined shall not exceed a total diversion rate of 1.28 cfs, a total annual maximum diversion volume of 522.0 af at the field headgate, and the irrigation of 130.5 acres.
6. Rights 45-13446, 45-14302, 45-14303, 45-14304 and 45-14305 when combined shall not exceed a total diversion rate of 5.99 cfs, a total annual maximum diversion volume of 2277.6 af at the field headgate, and the irrigation of 569.4 acres.

IN THE MATTER OF APPLICATION)
FOR TRANSFER NO. 76646 IN THE) **AGREEMENT**
NAME OF DAVID & SUSAN BECK)
)
)
)

David Beck farmed public land within NE1/4 and NESE of S09, T12S, R21E pursuant to a Cooperative Wildlife Habitat-Farming Agreement entered into pursuant to the Sikes Act of 1960 ((16 U.S.C. 670a-f; 74 Stat. 1052, as amended; P.L. 93-452. 88 Stat. 1369 (1974); P.L. 95-420, and 92 Stat. 921 (1978))) for a period between December 31, 1999 and December 31, 2009. Provisions of this expired agreement required that the use of water on public land be “legally authorized by the Idaho Department of Water Resources.” This authorization has expired and has not yet been renewed.

BLM requires sole title to water used on public land for authorized purposes, therefore BLM is participating in the transfer as a co-applicant for the limited purposes of facilitating the

transfer of water onto BLM land and to establish ownership of water used on public land in BLM's name within the same transfer.

The use of public land within NE1/4, S09, T12S, R21E is not currently authorized under federal law and the use of water is not authorized under state law, therefore it is necessary to define the parties understanding, expectations, and actions to be taken.

The use of irrigation water under the previous Sike's Act authorization within NESE, S09, T12S, R21E is covered by water right number 45-13786 which is in the name of BLM. This water right is being included in the transfer in order to add Points of Diversion (POD).

Water right number 45-13446 is also involved in this transfer. This water right is in BLM's name and is associated with a Land Use Permit (IDI-32650) which was entered into pursuant to 43 CFR 2920. This Land Use Permit expired on June 15, 2010. This water right is being included in the transfer in order to add Points of Diversion (POD).

David & Susan Beck agree and stipulate to the following conditions:

1. The beneficial use of water used on federal public land that is associated with any land use authorization that may be issued or renewed in the future by the United States shall be made pursuant to David & Susan Beck ("Beck") acting as an agent of the United States for the limited purposes of establishing and maintaining water rights held solely in the name of the United States and for no other purpose. Beck assumes all liability for compliance with applicable state and federal rules, regulations, and laws governing water use, irrigated agriculture, and associated activities, and for damages caused by Beck in the pursuit of using federal public land. Any water right(s) arising from the use of federal public land shall be by and for the United States, and no claim thereto shall be made by Beck. Water rights so acquired shall redound to the benefit of the United States and attach to and become appurtenant to federal

public land. No right, title, interest, or economic expectation of use accrues to Beck due to the use of water on federal public land made pursuant to BLM-issued land use authorizations. Beck shall not cause any water to be conveyed off federal public land without the express written permission of the Bureau of Land Management.

2. Beck understands that permission to proceed under any land use authorization (if or when one is issued) is withheld until such time that the use of water on public lands described in an associated land use authorization has been authorized by the Idaho Department of Water Resources ("IDWR"), and said water rights are held solely in the name of the Bureau of Land Management. Use of water on federal public land without written authorization from BLM and from IDWR would constitute a willful violation of the terms of this agreement.

3. Beck shall be responsible for all costs associated with farming federal public land described in Application for Transfer #76646, including but not limited to: acquiring water rights solely in the name of the United States, fines, penalties, violations, restitution, transfer fees, assessment fees, measurement fees, mitigation, power or fuel costs, and purchase, installation & maintenance of any required measurement devices, etc.

4. Beck agrees that the United States shall be released and held harmless from loss, injury, damage and/or reduction in value of water rights or the farming operation should a land use authorization not be issued, be terminated according to its terms, or a future land use authorization expires and is not renewed.

5. If a land use authorization is not issued, or is issued but expires and is not renewed, or is terminated according to its terms, then Beck may initiate another water transfer with IDWR pursuant to Idaho Code § 42-222 to move water used on federal public land as described in Transfer No. 76646 to non-federally owned lands within sixty (60) days of the date

BLM denies the application for land use authorization, or an issued authorization expires, or is terminated according to its terms. Beck agrees to bear all costs of said subsequent water transfer. The United States agrees to cooperate in said water transfer. Beck agrees that upon completion of the water transfer, Beck shall not assume title to any places of use that describe federal public land, and any portion of the water right(s) not transferred off of public land shall remain solely in the name of the United States.

6. If said subsequent water transfer of water off public land is not initiated within sixty (60) days of the date said application for land use authorization is denied, or expiration of an issued land use authorization, or termination of an issued land use authorization, or IDWR does not allow the transfer of all or a portion of the water described on public land as described in Transfer No. 76646, then Beck agrees that any portion of the water use describing federal public land as a place of use shall be forfeit. Beck further agrees to release and hold harmless the United States from any loss, injury, damage and/or reduction in value of water rights should IDWR not allow transfer of the water right(s), or any portion thereof, and is forfeited.

7. Failure of Beck to remain in compliance with state and federal rules, regulations, or laws regarding the use of water or any stipulated condition within this agreement to the satisfaction of the BLM Authorized Officer will result in the automatic termination of any issued land use authorization, if one is issued.

8. The stipulated conditions contained in this agreement comprise the entire agreement and no promise, inducement, or representation other than herein set forth has been made, offered and agreed upon, and the terms of this stipulation are contractual and not merely a recital.
